INTRODUCTION

Welcome to Chubs Inu Token, the Inu that makes chubbier pockets, chubbier X's, and gives chubbier rewards than any other Inu. When he eats, we all eat, so grab a plate of \$CHUBS, hang on tight, and let's get mooning!

\$CHUBS will host its presale on PinkSale with an SC/HC of 100/200. The token itself is a unique spin off of CHEEMS INU, and boasts automatic rewards in BUSD to its loyal holders, resulting in chubbier rewards, chubbier pockets, and chubbier X returns as well as anti-bot/anti-whale measures. \$CHUBS also plans to release a full fledged NFT drop of 1000 food based \$CHUBS NFTs and will roll this out with huge influencer promos once ready.

OUR ECOSYSTEM

Passive Income System

Our token rewards holder in BUSD, automatically, after every transaction. Get 1% BUSD back in your wallet after every buy, and 2% back to your wallet for every sell. As hype, awareness, and massive growth is experienced by \$CHUBS, holders will be getting paid in a valuable stable currency that will undoubtedly earn them passive income.

Steady Liquidity Growth

Ample and stable liquidity is essential to the growth of any token. While \$CHUBS isn't just "any token" our contract also distributes a percentage of all buy and sell fees back to the liquidity pool, to ensure requirements are met for various listings, buyer confidence, and steady liquidity and trading volume for smooth trading and transactions.

Regular Burns

While without a hardset burn schedule, \$CHUBS will host regular burns periodically for any of the tokenomics wallets that build up large amount over time from trading fees. We plan to utilize the fees to keep reinvesting into the project and rewarding holders as often as possible, but if there is ever a surplus we will burn and announce it!

The Chubs Inu Platform

ChubsMaker

A new approach to NFTs, the ChubsMaker is a launchpad platform that will allow holders of Chubs Inu to create, launch and promote their projects, as well as trade property related to them using the \$CHUBS monetary system. Please join us in our channels for updates.

\$CHUBS Token

\$CHUBS token will be an integral part of the project, but real utility, comes from use outside of just financial return. While high ROI potential, is what gets investors' foot in the door, real utility and creativity is what gets people to stay, which is why \$CHUBS is eager to announce the launches and integrations of all utility plans.

\$CHUBS Game

\$CHUBS is currently developing a P2E game where in holders and players will be able to earn BUSD for feeding \$CHUBS. NFTs will be incorporated into the game as well, some of which will allow the chubster to own more. Careful though, one rotten piece of food and its over for this chubby chow-wow and all your earnings.

TOKENOMICS

| | |
|--------------|--|
| Network | BSC |
| Total supply | 100 trillion |
| Token Name | Chubs Inu |

WEEK 3:

Chubs Inu P2E Game release, over \$100,000 paid out to holders in BUSD rewards, tiktok, youtube, Instagram take over, official Appstore app for CHUBS INU game.

CONCLUSION

The Chubs Inu Token community started out as just an idea. What could happen with no centralized team, no funding, and no direct leadership? Could decentralization actually work? Could we follow the perfect storm of digital currencies, like BTC or DOGE, except perpetuate something that is fully community-driven, instead?

This is the beginning of a new era for decentralized communities. When the time is right (because good things can't be rushed), Chubs Inu will be the crucial point of contact between the decentralized world and global communities, allowing us to actualize our vision of the widespread adoption of cryptocurrency. Again, we would like to say thank you to each and every one of you. Without your participation, none of this would be possible.

It's time for us to begin.
